Notes:

1 Occupational classification is based on the 2010 Occupational Classification System developed by the U.S. Census Bureau.

2 The information in this table is derived from death certificates when available and was reported by a relative, or in their absence, the coroner or physician who completed the death certificate. The death certificate asks for the decedent's "usual occupation" or the "kind of work done during most of working life." This may not be the decedent's occupation at the time of death.
