**Notes:**

- 1 Source: Report 874, New Claims Received. These are claims received by the Division of Workers' Compensation during the **calendar year, regardless of the date/year of injury** of the claim. It includes lost-time and medical-only claims, and duplicate First Reports for the same injury.
- 2 Source: Annual download of DOWC data. These claims have a **date of injury in the calendar year, regardless of received date**. In 1991, changes in the database made it possible to distinguish between "lost-time" and "medical-only" claims. Therefore, these claims are "lost-time" claims only. A lost-time claim is one in which the worker misses more than three shifts or three days of work because of a work-related injury or illness. Duplicate injury reports have also been eliminated.
